ISO/IEC 27001:2022 Statement of Applicability

Applicability and implementation status of ISO/IEC 27001:2022 Annex A controls

DOCUMENT TYPE	Register
VERSION	1.0 · Effective 12 December 2025
OWNER	Remote-I Ltd – Technical Lead
CLASSIFICATION	Internal / Customer Assurance
REVIEW CYCLE	Quarterly, and after risk assessment updates

ORGANISATION

LEGAL ENTITY	Remote-I Ltd
COMPANY NUMBER	15293974
REGISTERED OFFICE	45 Fitzroy Street, 4th Floor, Silverstream House, London, England, W1T 6EB
COMPLIANCE CONTACT	compliance@remote-i.com
DATA PROTECTION LEAD	Remote-I Ltd – Data Protection Lead

1. Purpose

This Statement of Applicability (SoA) records applicability and implementation status of ISO/IEC 27001:2022 Annex A controls for Remote-I's platform and operations.

It is a procurement and audit readiness artefact and should be confirmed during formal ISMS risk treatment.

2. Scope

Scope includes the Remote-I SaaS application, databases, file storage, backups, operational processes (support, incident response, change control), and supplier governance.

3. Notes

This SoA provides a practical implementation view for pilot / early production operations. Status values may be refined as the ISMS formalises and as additional enterprise controls are added.

Annex A Controls

Applicability and evidence summary

Control ID	Theme	Control focus (summary)	Applicable	Status	Justification / notes	Evidence
–	–	To be populated during formal ISMS risk treatment.	–	–	Placeholder pending full control mapping.	–

This SoA will be extended to cover all applicable ISO/IEC 27001:2022 Annex A control domains (Organisational, People, Physical, Technological) as the ISMS programme formalises.

End of Statement of Applicability. For enquiries, contact compliance@remote-i.com.
